# Transportation Permission

## School Year 2018–2019

Dear Parents,

For security reasons and to assist with dismissal, we need to know any carpool schedule you have arranged for your child. If you make a date for your child to visit another child who is not in the regular carpool, please contact both the regular carpool person and the person who will be transporting your child on that particular day, to be sure they have room for your child.

If someone new is to pick up your child, please advise us of whom it will be ahead of time with a note or telephone call. A child will not be released without a written or verbal message from you. The person picking up must have photo identification.

***Even if the parent is the only driver we must have this completed form on file.***

Thank you for your assistance.
